Sir:

**INFORMATION DISCLOSURE STATEMENT**  
**UNDER 37 C.F.R. § 1.97(b)**

Pursuant to 37 C.F.R. §§ 1.56 and 1.97(b), Applicants bring to the attention of the Examiner the documents listed on the attached PTO-1449. To the best of Applicants' knowledge, this Information Disclosure Statement is being filed before the mailing of a first Office Action on the merits in accordance with 37 C.F.R. § 1.97(b)(3). In the event that a first Office Action on the merits has been mailed, this Information Disclosure Statement is also being filed not more than three months after the first citation by a foreign patent office of each item of information on the accompanying form PTO-1449 in a counterpart foreign application in accordance with 37 C.F.R. § 1.97(e)(1). Accordingly, Applicants do not believe that a fee is due for filing this paper.

Pursuant to 37 C.F.R. § 1.97(d)(1), the references are not included with this submission, having been provided in prior application 09/873,319. Applicants respectfully request that the Examiner consider the listed documents and evidence that consideration by making appropriate notations on the attached form. An International Search Report in the corresponding International Application citing these documents and setting forth the relevance thereof is also attached.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If it should be determined that any of the listed documents

do not constitute "prior art" under United States law, Applicants reserve the right to present to the office the relevant facts and law regarding the appropriate status of such document.

Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

**Except** for issue fees payable under 37 C.F.R. §1.18, the Commissioner is hereby authorized by this paper to charge any additional fees during the entire pendency of this application including fees due under 37 C.F.R. §§1.16 and 1.17 which may be required, including any required extension of time fees, or credit any overpayment to Deposit Account No. 50-0310. This paragraph is intended to be a **CONSTRUCTIVE PETITION FOR EXTENSION OF TIME** in accordance with 37 C.F.R. §1.136(a)(3).

Respectfully submitted,  
**MORGAN, LEWIS & BOCKIUS LLP**

### INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference 44921-5029WO	<b>FOR FURTHER ACTION</b>	see Notification of Transmittal of International Search Report (Form PCT/ISA/220) as well as, where applicable, item 5 below.
International application No. PCT/US01/24708	International filing date ( <i>day/month/year</i> ) 07 August 2001 (07.08.2001)	(Earliest) Priority Date ( <i>day/month/year</i> ) 07 August 2000 (07.08.2000)
Applicant GENE LOGIC, INC.		

This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.

This international search report consists of a total of 5 sheets.

It is also accompanied by a copy of each prior art document cited in this report.

**1. Basis of the Report**

a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).

b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:

contained in the international application in written form.

filed together with the international application in computer readable form.

furnished subsequently to this Authority in written form.

furnished subsequently to this Authority in computer readable form.

the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.

the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

2. ☐ Certain claims were found unsearchable (See Box I).

3. ☒ Unity of invention is lacking (See Box II).

4. With regard to the title,

the text is approved as submitted by the applicant.

the text has been established by this Authority to read as follows:

5. With regard to the abstract,

the text is approved as submitted by the applicant.

the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.

6. The figure of the drawings to be published with the abstract is Figure No. \_\_\_\_\_

as suggested by the applicant.

because the applicant failed to suggest a figure.

because this figure better characterizes the invention.

None of the figures

PCT/US01/24708

## Box I Observations where certain claims were found unsearchable (Continuation of Item 1 of first sheet)

This international report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claim Nos.:  
because they relate to subject matter not required to be searched by this Authority, namely:
2. ☐ Claim Nos.:  
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3. ☐ Claim Nos.:  
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

## Box II Observations where unity of invention is lacking (Continuation of Item 2 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:  
Please See Continuation Sheet

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☒ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.: 1-3

Remark on Protest

☐  
☐

The additional search fees were accompanied by the applicant's protest.

No protest accompanied the payment of additional search fees.

## INTERNATIONAL SEARCH REPORT

International application No.

PCT/US01/24708

### BOX II. OBSERVATIONS WHERE UNITY OF INVENTION IS LACKING

In a telephone conversation with Michael S. Tuscan, March 15, 2002, to determine whether applicants' elected additional groups it was pointed out that the original lack of unity contained an error whereby Group 1 (claim(s) 1-3), drawn to gene profiling of benign prostatic hyperplasia, was inadvertently omitted. It is hereby agreed upon that the lack of unity requirement be modified by the addition of Group 1. Therefore, the original Group 1-755 is now Group 2-756, the original Group 756-1510 is now Group 757-1511, etc. Applicants' elected newly modified Group 1 (claim(s) 1-3), and no additional groups.

This application contains the following inventions or groups of inventions which are not so linked as to form a single inventive concept under PCT Rule 13.1. In order for all inventions to be searched, the appropriate additional search fees must be paid.

Group 1 (claim(s) 1-3), drawn to gene profiling of benign prostatic hyperplasia (newly modified).

Groups 2-756 (claim(s) 1-7), drawn to a method of identifying an agent that modulates the onset or progression of benign prostatic hyperplasia in cells based on expression of SEQ ID NO X, wherein X is anyone of SEQ. ID. Nos: 1-755. For example,

If Group 2 is elected, this correlates with SEQ ID NO: 1.

Groups 757-1511 (claim(s) 8-12), drawn to a method of diagnosing the onset or progression of benign prostatic hyperplasia in a subject based on expression of SEQ ID NO X, wherein X is anyone of SEQ. ID. Nos: 1-755. For example,

If Group 757 is elected, this correlates with SEQ ID NO: 1.

Groups 1512-2266 (claim(s) 13-17), drawn to a method of differentiating prostatic hyperplasia from prostate cancer based on expression of SEQ ID NO X, wherein X is anyone of SEQ. ID. Nos: 1-755. For example,

If Group 1512 is elected, this correlates with SEQ ID NO: 1.

Groups 2267-3021 (claim(s) 18-31), drawn to an oligonucleotide probe of SEQ ID NO X, wherein X is anyone of SEQ. ID. Nos: 1-755. For example,

If Group 2267 is elected, this correlates with SEQ ID NO: 1.

Groups 3022-3776 (claim(s) 32-43), drawn to a computer-system comprising a database of information pertaining to SEQ ID NO X, wherein X is anyone of SEQ. ID. Nos: 1-755. For example,

If Group 3022 is elected, this correlates with SEQ ID NO: 1.

Groups 3777-4531 (claim(s) 44-48), drawn to a method of monitoring treatment in a patient based on gene expression of SEQ ID NO X, wherein X is anyone of SEQ. ID. Nos: 1-755. For example,

If Group 3777 is elected, this correlates with SEQ ID NO: 1.

Group 4532 (claim(s) 49 and 50), drawn to a method of analysing gene expression results by implementing an algorithm.

The inventions listed as Groups 1-4532 do not relate to a single inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The claimed methods produce different products and/or different results which are not coextensive and which do

## INTERNATIONAL SEARCH REPORT

International application No.

PCT/US01/24708

not share the same technical feature; identification of a compound, diagnosing BPH, differentiating from cancer, an oligonucleotide probe, computer-system, monitoring treatment, and analysis with an algorithm. Furthermore, the claims are directed to different genes corresponding to SEQ ID Nos: 1-755. Each of these genes are separate entities which encodes different proteins with different activities, binding reactions, antibody recognition, etc. and thus each has its own special technical feature. Thus, in summary, each of Groups 1-4532 are directed to different special technical features and thus support this lack of unity.

**Continuation of B. FIELDS SEARCHED Item 3:**

US PAT FULL, COMPUSCIENCE, BIOSIS, BIOCOMMERCE, CAPLUS

search terms: benign prostatic hyperplasia, gene expression, cell, drug, microarray, compare
